19. Cutting Layer	001 nos.	Thailand
20. Boiler	004 nos.	USA & China
21. Exhausted Gas Boiler	002 nos.	
Total :	3030 nos.	

Sample Section

Floor Space : 4500 Sq. feet.

Machineries : 45 Machines + 1 Cutting Table + 2 Vacuum Iron+ 2 Inspection Table+ 1 Pattern Table.

Manpower : 60 Personnel working under the sample Manager separate Pattern master, Q.C,
Cutting man, sewing operator- asst. operator, iron folding & packing man.

Cutting Section

Cutting Table : 14 cutting table of (70-90 feet each) in four separate floors.

Floor Space : 75,000 sq. feet.

Total Capacity : 1, 30,000 Pcs/Day (Average)

Manpower : 530 personnel

Embroidery Section

6 sets of Embroidery Machine with 20 head each, Applique laser cutting machine (01pc), Applique fusing machine (01pc) and Single head manual machine (01pc)

Brand : Barudhan, Japan

Floor space : 4,000 sq.ft.

Manpower : 52 Personnel

Screen Printing Section

Independed Print factory with 14 table in 100 feet in length. With Graphic design and color Team.

Capacity : 40,000 pcs/Day in Avg.

Floor space : 20,000 sq.ft.

Manpower : 300 Personnel

Sewing Section

72 Production lines in total.

Floor Space : 135,000 sq. feet.

Total Capacity : 1, 30,000 Pcs/Day

Manpower : 3900 personnel.

Finishing Section

Four separate floors.

Floor space : 80,000 sq. feet

Total Capacity : 120,000 Pcs/Day (Average)

Manpower : 1300 personnel.

Office staff

A large team of Technical personnel are directly working, assisting the workers and Coordinating pattern, cutting, sewing, and quality, finishing-packing. About 900 people are working as a supervisor, line chief, Floor in charge, section manager.

Quality Team

Independent quality team of 550 people is working to ensure customer's required quality standard. Factory regular AQL system is 2.5 but in certain case it depends on customer requirement.

Logistic Team

A team of 15 personnel working under the Commercial Manager to ensure proper and timely documentation to continue smooth procedure of Export - import , Banking and other logistic support.

Auditing Team

There is an Internal Auditing system is continuously going on by the professional auditors. What are making everybody to be more careful, responsible and minimizing wastage and process loss.

We are among the best knitting industries of Bangladesh and manufacture the best quality Garments for our clients. Over the years our quality products and reputation have created a strong business relation with the world's famous clothing brands. We use the latest technology and environment friendly production process to deliver the best quality to our clients. Our units are:

Circular Knitting Unit:

We have a large circular knitting unit having 110 machines with 20GG, 24GG, 28GG cylinder and optimum attachment to produce all types of weft knitted fabric. Machines are Fukuhara, Fukuhama and Jiunn long baranded. We also have 28 machines with open width take down and 05 engineering striper machine. List of machines with diameter as bellow:
