List of Machineries

<u>Name of the Machine</u>	<u>Nos</u>	<u>Origin</u>
1. Single needle Plain Machine	777 nos.	Japan
2. 2-needle, 5-thread over lock	08 nos.	Japan
3. 2-needle, 4-thread, over lock	593 nos.	Japan
4. 2-needle, 4-thread, lap seam stitching	17 nos.	Japan
5. 3-needle, 5-thread, chain stitch	06 nos.	Japan
6. 1-needle Button Hole	24 nos.	Japan
7. 1-needle Button stitches	24 nos.	Japan
8. Snap button machine	14 nos.	Japan
9. Flat Lock Flatbed	105 nos.	Japan
10. Flat Lock Cylinder bed	278 nos.	Japan
11. Kansai Special (PMD)	06 nos.	Japan
12. Bar tack Machine	05 nos.	Japan
13. 3 Thread over lock	10 nos.	Japan
14. Rib cutting machine	23 nos.	Taiwan
15. Cutting machine	24 nos.	Japan
16. Thread winder (Re-conning)	06 nos.	Japan
17. Heater less steam iron & Vacuum Table	140 Sets.	Japan
18. Strapping Machine, TOYO	05 nos.	Japan
19. Thread Sucking Machine	06 nos.	BD.
20. Metal Detector (SainTex)	01 nos.	Japan
21. Cutting Layer	01 nos.	Thailand
22. Boiler	05 nos.	USA & China
Total :	2085 nos.	

Sample Section

Floor Space : 4500 Sq. feet.

Machineries : 45 Machines + 1 Cutting Table + 2 Vacuum Iron+ 2 Inspection Table+ 1 Pattern Table.

Manpower : 60 Personnel working under the sample Manager separate Pattern master, Q.C,
Cutting man, sewing operator- asst. operator, iron folding & packing man.

Cutting Section

Cutting Table : 12 cutting table of (70-90 feet each) in four separate floors.

Floor Space : 50,000 sq. feet.

Total Capacity : 1, 00,000 Pcs/Day (Average)

Manpower : 430 personnel

Embroidery Section

6 sets of Embroidery Machine with 20 head each, Applique laser cutting machine (01pc), Applique fusing machine (01pc) and Single head manual machine (01pc)

Brand : Barudhan, Japan

Floor space : 4,000 sq.ft.

Manpower : 52 Personnel

Screen Printing Section

Independed Print factory with 14 table in 100 feet in length. With Graphic design and color Team.

Capacity : 40,000 pcs/Day in Avg.

Floor space : 20,000 sq.ft.

Manpower : 300 Personnel

Sewing Section

Five floor of 6 lines each & three floor of 10-lines each, 60 Production lines in total.

Floor Space : 95,000 sq. feet.
Total Capacity : 1, 00,000 Pcs/Day (Average)
Manpower : 3389 personnel.

Finishing Section

Four separate floors.

Floor space : 42,000 sq. feet
Total Capacity : 95,000 Pcs/Day (Average)
Manpower : 1065 personnel.

Office staff

A large team of Technical personnel are directly working, assisting the workers and Coordinating pattern, cutting, sewing, and quality, finishing-packing. About 700 people are working as a supervisor, line chief, Floor in charge, section manager.

Quality Team

Independent quality team of 454 people is working to ensure customer's required quality standard. Factory regular AQL system is 2.5 but in certain case it depends on customer requirement.

Logistic Team

A team of 15 personnel working under the Commercial Manager to ensure proper and timely documentation to continue smooth procedure of Export - import , Banking and other logistic support.

Auditing Team

There is an Internal Auditing system is continuously going on by the professional auditors. What are making everybody to be more careful, responsible and minimizing wastage and process loss.

We are among the best knitting industries of Bangladesh and manufacture the best quality Garments for our clients. Over the years our quality products and reputation have created a strong business relation with the world's famous clothing brands. We use the latest technology and environment friendly production process to deliver the best quality to our clients. Our units are:

Circular Knitting Unit:

We have a large circular knitting unit having 110 machines with 20GG, 24GG, 28GG cylinder and optimum attachment to produce all types of weft knitted fabric. Machines are Fukuhara, Fukuhama and Jiunn long baranded. We also have 28 machines with open width take down and 05 engineering striper machine. List of machines with diameter as bellow:

<u>Name of Machine</u>	<u>Dia</u>	<u>Guage</u>	<u>Nos.</u>	<u>Origin</u>	<u>Nos.</u>

Total:					110

Flat Knitting Unit:

We have computerized flat knit machines branded around star, kauo heng, Jy lee having jaquarded option to produce different types of collar, Cuff and bottoms.

29. FLATKNIT	40"-84"	14		Taiwan	28
--------------	---------	----	--	--------	----

Narrow Fabric Unit:

We have a narrow fabric unit to produce better quality accessories of garments like twill tape, dusting etc

30. Warping Machine	Taiwan	01
31. Weaving Machine (Tape)	Taiwan	02
32. Bobbin Winding Machine	Taiwan	01
33. Breeding Machine	Taiwan	02

Quality Control Unit:

We have a well equity quality control unit to product the best quality for our customers. Equipments are as bellow:

34. Grey Inspection machine made by UZU form Taiwan	08 Nos
35. Yarn Length Tester (YLT) made by BARTHTEX form GERMANY	02 Nos
36. Yarn Tension Tester Made by SCHMDT from GARMANY	03 Nos
37. Yarn Count Testing Machine Made by SDL ATLUS from UK	01 Nos

Summary:

Total	: 158 Sets.
Floor Space	: 80,000 sq. feet.
Total Capacity	: 28,000 Kgs/Day (Average) 20,000 Pw Collar/Day (Average) 20,000 Yds Tape/Day (Average)
Manpower	: 390 personnel.

List of Machineries

<u>Name of Machine</u>	<u>Capacity</u>	<u>Nos.</u>	<u>Origin/Brand</u>
1. Auto-detwisting Ballooning Squeezer	7000 Kgs/Day	1 set	Turkey(Mersan)
